

What is a Dine & Donate Event?

Thanks to the help of local restaurants and food chain establishments, many offer the opportunity to set up a specific date and timed event where a certain portion of revenue received will go to a designated non-profit organization.

In this case, you can choose The Nephrotic Syndrome Foundation to be the beneficiary of your established Dine & Donate Event!

How?

DETAILS

Start by reaching out to the restaurant or establishment of your choice. This can be done via a website (example: Chipotle - marketing.chipotle.com/partner/fundraiser-request/), by phone, or in person to start the request!

Think through dates, times, and details that would best fit your community. Are there dates and times that would work for your local families? Is there a local sporting event? Are there any holidays to consider?

Helpful Information if Needed

The Nephrotic Syndrome Foundation is a fiscally sponsored project by Social Good Fund, a California non-profit corporation and registered 501(c)(3) organization, Tax ID (EIN) 46-1323531.

PRE-EVENT IDEAS

Once your event has been approved and your date and time are established, it's time to start spreading the news! If possible, use the restaurant's provided logo and / or any

material provided. If needed, NSF can provide our logo and any additional content that would support your event.

Social media is a great way to share details! Make sure to tag us (@nephroticsyndromefoundation) so we, too, can help spread the word!

Reach out to Jen at jen@nephroticsyndromefoundation.org for any additional support needed.

DAY-OF

While it's not always necessary, it can be highly beneficial to be present during the event as a way to encourage and share more information and details with those participating!

Take photos and share them!

Have a printed QR code taking people to NSF's Instagram page for anyone wanting to stay in touch with what we are doing and how they can get involved in the future.

WRAP-UP

Send a thank-you message to the restaurant or establishment for their support and kindness!

Connect with Team NSF for any wrap-up details or information needed. Please let us know how we might also be able to express our gratitude to any partners or supporters from the event.
